**Payment—Payment must be made when seedlings are ordered in order to reserve trees.**  
**Cash**—Come say hello and drop off your payment or mail order and payment to reserve your trees for the coming spring.  
**Check**—Make checks payable to: Lincoln Conservation District

**Delivery Options**

**Pick-up**—Seedlings can be picked up on Wednesday, May 1, 2019, at the Lincoln Conservation District Field Office, 110, Pine Street, Room 1, Cokeville Town Hall, Cokeville, Wyoming

The LCD will be delivering seedlings in Kemmerer at The Bank of the West parking lot, late afternoon on Tuesday, April 30, 2019.

The LCD will be delivering seedlings to Afton USDA Service Center on Wednesday, May 1, at 625 Washington Street, Afton, Wyoming

**CONDITIONS OF SALE**

- 1) Nursery stock is to be used for conservation purposes only.
- 2) Payment must accompany order; no trees will be reserved until payment has been received.
- 3) Trees are living organisms that require proper care; there can be no guarantee of survival.
- 4) All orders are final; No cancellations or refunds.
- 5) In the event that trees ordered are unavailable, a refund MAY be offered unless a substitute species can be arranged.

**Please check out the Lincoln Conservation District’s Website [lincolnconservationdistrict.org](http://lincolnconservationdistrict.org) to download copies of the Colorado State Nursery booklets:**

<b>Deciduous Shrub Total \$</b>				

The Colorado State Forest Service Nursery was established in 1957 and operates as a self-funded enterprise within the umbrella of the Colorado State Forest Service and the Warner College of Natural Resources. We produce low cost, seedlings for conservation efforts, and proudly serve the Fort Collins, Colorado area directly from the nursery.

If you do not live in the Fort Collins area, but are interested in obtaining any of the seedlings we produce, we encourage you to contact a cooperating agency near you. These cooperating agencies, which are comprised of Colorado State Forest Service District Offices, University Extension offices, and Natural Resource Conservation District offices, accept tree orders, and receive deliveries from the nursery each spring.

In addition to providing a more local point for customers to pick up seedlings, these agencies can offer insight into which plant species will work well in the area they serve. Many also offer additional services which can be of great value for anyone interested in improving their land. For more information, or to find a cooperator in your area, please check online at:
